Pecco PH6000-12

Single Car Construction Hoist

Mast section
4'-11 3/8" x 2'-6" x 2'-6"

Counterweight

Mast tie

Gin pole

Car head

Door opening
4'-7" x 6'-6"

Mast tie

Spacing of mast tie: 17'-8" min. — 30'-0" max.

NOTE!
Local jurisdiction may require max. tie spacing to be less than 30'-0"

Foundation

Base enclosure

Car

35'-0" maximum above uppermost mast tie

17'-0" minimum distance from last serviceable landing

12'-11"
**Plan View - Slab**

**IMPORTANT!** Verify that the use of a slab foundation conforms to all applicable federal, state and local standards and codes PRIOR to installation.

**Section A-A**

**NOTES:**
1. Foundation pad: 14'-0" x 9'-0" x 1'-0" with 3,625 psi concrete @ 28 days.
2. Reinforcing bars are ASTM 615-60.
3. Foundation based on 500-ft mast height. For greater heights, consult Morrow engineering.
4. Foundation pad designed for a minimum soil bearing of 1000 psf.
5. Check method of installing mast tie. This may determine the location of the foundation pad.

**WARNING:** When using this anchoring alternative, the car MUST remain at ground level until first mast tie is installed. For dismantling, the car MUST be at ground level when removing bottom mast tie.

**ALTERNATE ANCHOR BOLT DETAIL**

**Slab & Pit**
NOTES:
1. Foundation pad: 14'-0" x 9'-0" x 4'-0" with 3,625 psi concrete @ 28 days.
2. Pit size: 13'-2" x 8'-2" x 3'-0".
3. Reinforcing bars are ASTM 615-60.
4. Wire mesh is ASTM A185.
5. Foundation based on 500-foot mast height. For greater heights, consult Morrow engineering.
6. Foundation pad designed for minimum soil bearing of 1,000 psf.
7. Be sure to check method of mast tie installation. This may determine location of foundation pad.
# Specifications

## Pecco Construction Hoist
**Single Car Model PH6000-12**

### Safety Features
- Fail-safe brakes on both hoist motors.
- Heavy-duty overspeed governor activates safeties that clamp directly onto mast legs.
- Stop and final limit switches limit hoist car travel when reaching end positions.
- Extra large safety shoes combine maximum braking with minimum wear.
- Door interlock switches prevent operation of hoist with doors open.
- Spring buffers.
- Rugged, all-steel car.

### Other Features and Notes
- Adding mast sections does not require special equipment. The PH6000-12 is completely self-erecting.
- For instructions regarding installation and operation of the PH6000-12 single car hoist, refer to operation manual.
- Specifications are subject to change without prior notification.
- Drawings are for illustrative purposes only. Do not scale.
- For other configurations, contact Morrow engineering for information.
- This product must be used in a safe manner. Furthermore, use of this product and its components must be in conformity with manufacturers’ specifications and in compliance with all applicable standards, codes, regulations, etc.
- Please refer to operation manual before installing, operating, servicing or dismantling PH6000-12 hoist.
